Directions:

1. Cut Cardstock to measure 12" x 5 1/2" (cut two and you will have a 12" x 1" strip left)

3. Copy the latch guide onto card stock and cut out inside square, making a template. Place template on panel 1, trace (lightly) the top, bottom and right side of the square. Cut on the line using a straight edge and xacto knife. DO NOT cut the left side of the square.
4. Stamp desired images onto the card while flat.
5. Fold card on score lines and slip “latch” of panel 1 under edge of Panel 3.
6. Stamp focal image(s) on Opaque sticker paper, trim leaving tiny white edges.
7. Remove backing and mount image(s) through latch/square opening onto panel 3
